Introduction

The Idaho Children's Trust Fund would like to invite you to apply to our 2017-2018 Annual Grant Cycle. Established by the Idaho Legislature in 1985, ICTF's mission is to support efforts designed to prevent child abuse and neglect within the state. Our vision is to live in a world where all children are valued and have the opportunity to thrive.

We are requesting grant proposals from all over the state for programs intended to prevent child abuse and neglect. Eligible programs **must** be located in the state of Idaho or provide services to Idaho residents. Grants are available to public or private nonprofit, faith-based, government agencies, or qualified individuals who provide community based educational or service programs.

Core Considerations

Grant proposals will be considered based on the degree to which it addresses one or more of the following factors:

- Does the program seek to prevent child abuse and neglect by building on family strengths and resiliency?
- Does the program partner with parents to help build strong, healthy families?
- Does the program intentionally address child neglect or look at factors most identified with child neglect: history of trauma, poverty, maternal depression, substance abuse, or devaluing challenges of child rearing?
- Does the program intentionally reach out to underserved populations such as rural communities, communities of color, and homeless families?
- Does the program utilize the [strengthening families framework](#) and work to build one or more of the following protective factors into a child's life and family:
 - Parental Resilience
 - Social Connections
 - Concrete supports
 - Knowledge of Parenting and Child Development
 - Social and Emotional Competence of Children (including nurturing and attachment)
