PUT KIDS FIRST

IDAHO

71.6% of children, age 19-35 months, in our state are fully immunized.

The Healthy People 2020 target is 80%.

57.3% of females between 13-17 received vaccinations for HPV in 2015.

Compared to 59.4% who received HPV vaccinations in 2014—that's a 2.1% drop.

Idaho Adolescent Immunization Rates
